

2030 Infrastructure Plan

April 8, 2016

1.0 INTRODUCTION

The *2030 Infrastructure Plan* covers the City's infrastructure investment needs for the next 15 years (2016-2030) and was developed to align with the objectives of the City's Official Community Plan and Council and Corporate priorities. The plan is focused on taking care of existing infrastructure, ensuring the community's health and safety while meeting legislative requirements and providing opportunity for growth and economic development. The *2030 Infrastructure Plan* strives to balance affordability with infrastructure that delivers the expected services to the community.

The *2030 Infrastructure Plan* has been prepared by staff and contains infrastructure projects for all City service areas except the Airport. Several documents have been used in this plan's preparation. These include:

- Open for Opportunity (Council Priorities 2014 - 2018),
- 2030 Official Community Plan,
- 20 - Year Servicing Plan and Financing Strategy,
- 2020 Capital Plan,
- Infrastructure Asset Management Plans,
- Transit Future Plan, and
- Transportation and Utility Models.

Since 1996 the population of Kelowna has grown by approximately 39% from 89,000 to approximately 123,500. The City's growth is forecast to continue to grow over the next fifteen years at an average rate of approximately 1.39%. With this growth and aging infrastructure, the City needs a strategic infrastructure plan to forecast investment in infrastructure renewal and infrastructure to accommodate growth, economic development, and modifications to meet regulatory changes (e.g. water treatment and transportation safety).

Adequate financing needs to be in place to schedule and undertake each capital investment. The *2030 Infrastructure Plan* looks at revenue sources whether it be rates, taxes, fees, development cost charges, grants, reserves or borrowing. As there is never enough money to fund competing needs, tradeoffs and hard choices are required to establish an optimum and affordable list of priorities. The *2030 Infrastructure Plan* provides the framework for long term planning and fiscal management and allows the City to look ahead and answer three fundamental questions:

- "What do we need?"
- "Why do we need it?"
- "How are we going to pay for it?"

Answering these three questions allows the City to anticipate current and future cost pressures, stretch the limits of our revenues by source, and make the necessary decisions to put in place essential infrastructure to support a future Kelowna. By doing so, this plan will help maximize the investment in the community where and when it is most needed.

1.1 USE OF THE 2030 INFRASTRUCTURE PLAN

The *2030 Infrastructure Plan* is the highest level capital plan with the primary objective of providing infrastructure that delivers the expected services to the community. Figure 1 shows the infrastructure planning model and the hierarchy of the various planning documents. The *2030 Infrastructure Plan* is the link between the high level planning documents (above) like the Official Community Plan, Council and Corporate Priorities and the infrastructure delivery plans (below) which include the 10 year capital plan and the annual capital plan. This simple infrastructure planning model starts with understanding community expectation and ends with providing infrastructure that delivers the expected services to the community.

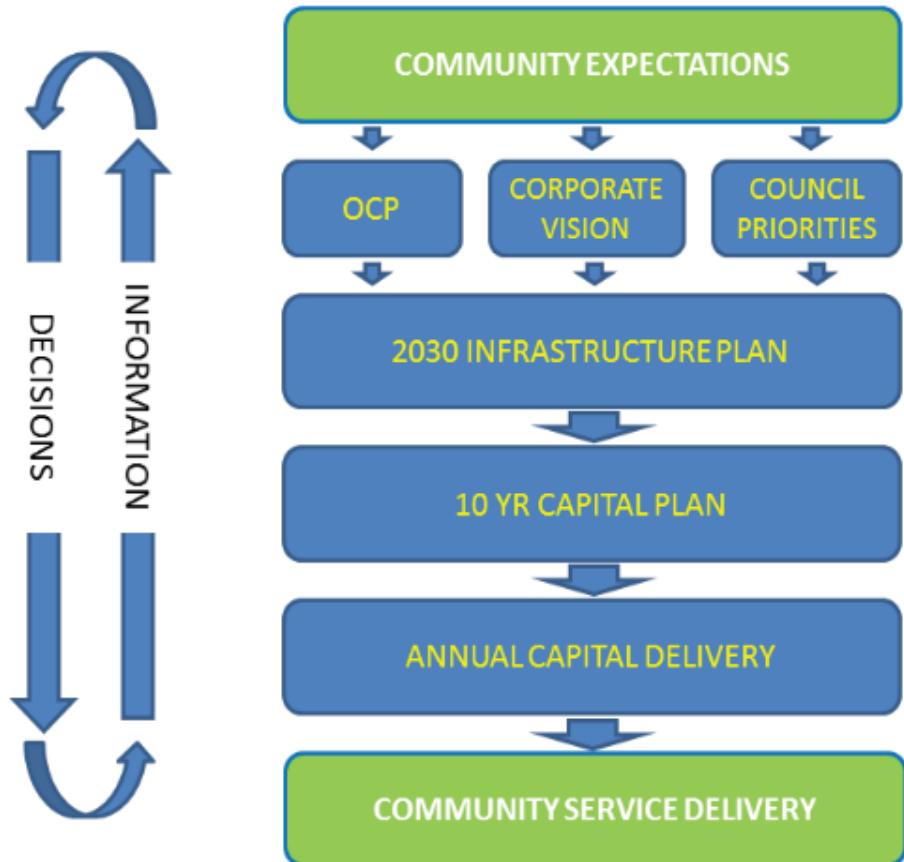

Figure 1. Infrastructure Planning Model.

The *2030 Infrastructure Plan* will provide Council and Staff with the guidance and information required for current and future capital expenditure decisions and will be used to develop the 10 year capital plan and annual capital plan.

Approval of the *2030 Infrastructure Plan* will assure Council that the direction they set is being maintained and that there is a complete justification for any variations from the

plan. Compliance with the plan will also assure the community that growth is being managed in an orderly and affordable manner.

1.2 OBJECTIVES OF THE PLAN

There are a number of objectives to strive for in the development of *2030 Infrastructure Plan*, including:

- Develop a capital plan which supports the Official Community Plan, 20 Year Servicing Plan & Financing Strategy, Council and Corporate priorities and other interrelated plans.
- Provide Council with guidance and information upon which to base current and future capital expenditure decisions.
- Provide City departments with longer term direction and planning capabilities based on support provided from Council.
- Aid Council's understanding of the City's financial position, financing capabilities, potential future referenda identification/opportunities, etc.
- Provide the Financial Services department with improved information for their development of other long range financial planning strategies and policies.
- Improve capital planning process.

1.3 RISK FACTORS

As with any plan, the *2030 Infrastructure Plan* is based on conditions that exist at the time of preparation. Using current costs and service levels can provide a reasonable estimate of future requirements. There are still several risk factors associated with this plan, including:

- Service level changes,
- Unexpected increase in operating costs resulting from new infrastructure,
- Tax revenue reduction (e.g. economic slowdown),
- Provincial support and/or additional provincial downloading,
- Significant project cost increases,
- Projected growth rate changes,
- Emerging demands,
- National/Provincial Economy changes which impact municipalities,
- Unanticipated disasters.

Any of the above factors could cause a change in the size or direction of *the 2030 Infrastructure Plan*. To manage these factors a subset of the *2030 Infrastructure Plan*, 10 Year Capital Plan, will be reviewed and adjusted annually to coincide with prevailing demands and conditions.

2.0 SUMMARY

The *2030 Infrastructure Plan* is based on sound information and assumptions regarding the City's current and future infrastructure requirements and ability to fund those improvements. The following provides a summary of the *2030 Infrastructure Plan*. Project details, their timing and funding sources are provided by service area in the appendix.

2.1 COUNCIL PRIORITIES

Kelowna City Council is committed to building on the momentum of past Councils and being open for opportunity through community engagement and partnerships. Council has established priorities with their *Open for Opportunity (Council Priorities 2014 - 2018) report*. Council seeks to deliver on the City's corporate mission and vision to lead the development of a safe, vibrant and sustainable city and to the best mid-sized City in North America. In its decision-making, policy development and its interactions with staff, the public, investors and other key stakeholders, Council will move opportunities forward. Council's priorities are reflected in the *2030 Infrastructure Plan* and are summarized for below.

- ▶ Clean Drinking Water
 - ▶ \$88 million in water projects both to support growth and renew existing assets
- ▶ Building Vibrant Urban Centers
 - ▶ Rutland Centennial Park Redevelopment (2016 - 2020)
 - ▶ Shephard road extension (2016)
 - ▶ New Memorial & expanded Library Parkades (2015 - 2016)
 - ▶ New Downtown Parkade (land) (2020)
- ▶ Ensuring a Healthy, Safe, Active & Inclusive Community
 - ▶ Police Service Building (2015 - 2017)
 - ▶ Mission Recreation Park - two new ice sheets and indoor soccer (2021 - 2022),
 - ▶ Parkinson Recreation Centre (2021 - 2023),
 - ▶ Mission - Activity Centre (2024 - 2025),
 - ▶ New North Glenmore Fire hall, Rutland & Water St Fire Hall Upgrades, Rutland CPO upgrades.
- ▶ Delivering a Balanced Transportation Network
 - ▶ \$102 million investment in pedestrian, cycling and transit
 - ▶ Queensway Transit Exchange (2015)
 - ▶ Okanagan Rail Trail planning (2016)
 - ▶ John Hindle Dr (2015 - 2017)
 - ▶ South Perimeter Rd (2016 - 2017),
- ▶ Catalyst for business
 - ▶ Tourism Centre/Kerry Park Ph.1 (2016 - 2017)
 - ▶ Implement Dark Fiber (2016 - 2019)

2.2 COMMUNITY VISION

Community input into the OCP indicates residents have a strong desire to make the city more sustainable by striking the best balance between environmental protection, economic growth, social development and cultural vibrancy. Specifically, residents want a City where:

- Urban communities are compact and walkable,
- Housing is available and affordable for all residents,
- People feel safe downtown and in their own neighbourhoods,
- The natural environment (land and water) is protected and preserved,
- Walking paths and bicycle routes connect to key destinations,
- The economy is growing, vibrant and bringing in new business,
- Buildings and public spaces are attractive places, and
- Recreation and cultural opportunities are plentiful.

The *2030 Infrastructure Plan* takes steps to achieve the community's vision. As many of the OCP objectives are complimentary to Council priorities only select OCP goals have been shown below to avoid repeating information.

- ▶ Provide spectacular parks
 - ▶ \$105 million in park land acquisition (2016 - 2030)
 - ▶ \$52 million in park development and renewal (2016-2030)
- ▶ Protect and enhance natural areas
 - ▶ \$6 million in Linear / Natural Area Park Development (2016 - 2030)
- ▶ Encourage cultural vibrancy
 - ▶ Art Walk - Extension (2017 - 2018)
 - ▶ \$5 million in heritage restoration (2017 - 2030)
- ▶ Improve efficiency and performance of buildings
 - ▶ All new buildings and facilities are designed to use less energy, reduce GHG emissions and to have lower life cycle cost.

In summary, the *2030 Infrastructure Plan* targets many of the goals, objectives and policies in the OCP and Council Priorities and aims to create a sustainable city where environmental concerns are addressed along with the goal of creating a place where people want to live, work and play.

2.3 INFRASTRUCTURE PROJECTS

Total investment for Priority 1 projects in the *2030 Infrastructure Plan* is \$1.06 billion. Projects have been divided into three capital category based on the project driver - New, Growth and Renewal as defined below.

- *New Capital* - infrastructure required to support enhanced service levels,
- *Growth Capital* - infrastructure required to accommodate growth,
- *Renewal Capital* - infrastructure that replaces or renews existing assets.

New Capital accounts for \$197 million (19%) of the plan (Figure 1). Growth Projects account for \$487 million or 46%. There is an emphasis on asset renewal with approximately \$374 million (35%) of the plan allocated to Renewal Capital which represents on average of \$25.0 million per year.

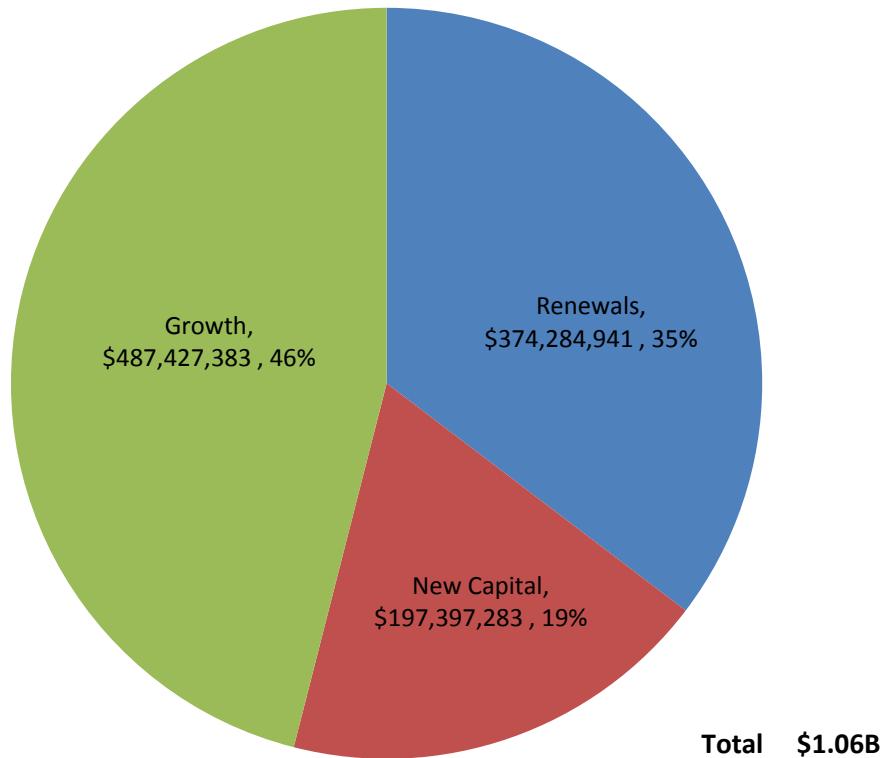

Figure 1 - 2030 Infrastructure Plan capital investment by category.

2030 Infrastructure Plan – Capital Summary

The figure below shows the capital investment summary by service area. The bars show the total capital cost by year and each bar is further subdivided by colour into the respective service area (i.e. Transportation, Buildings, Parks, Water, Wastewater, etc.).

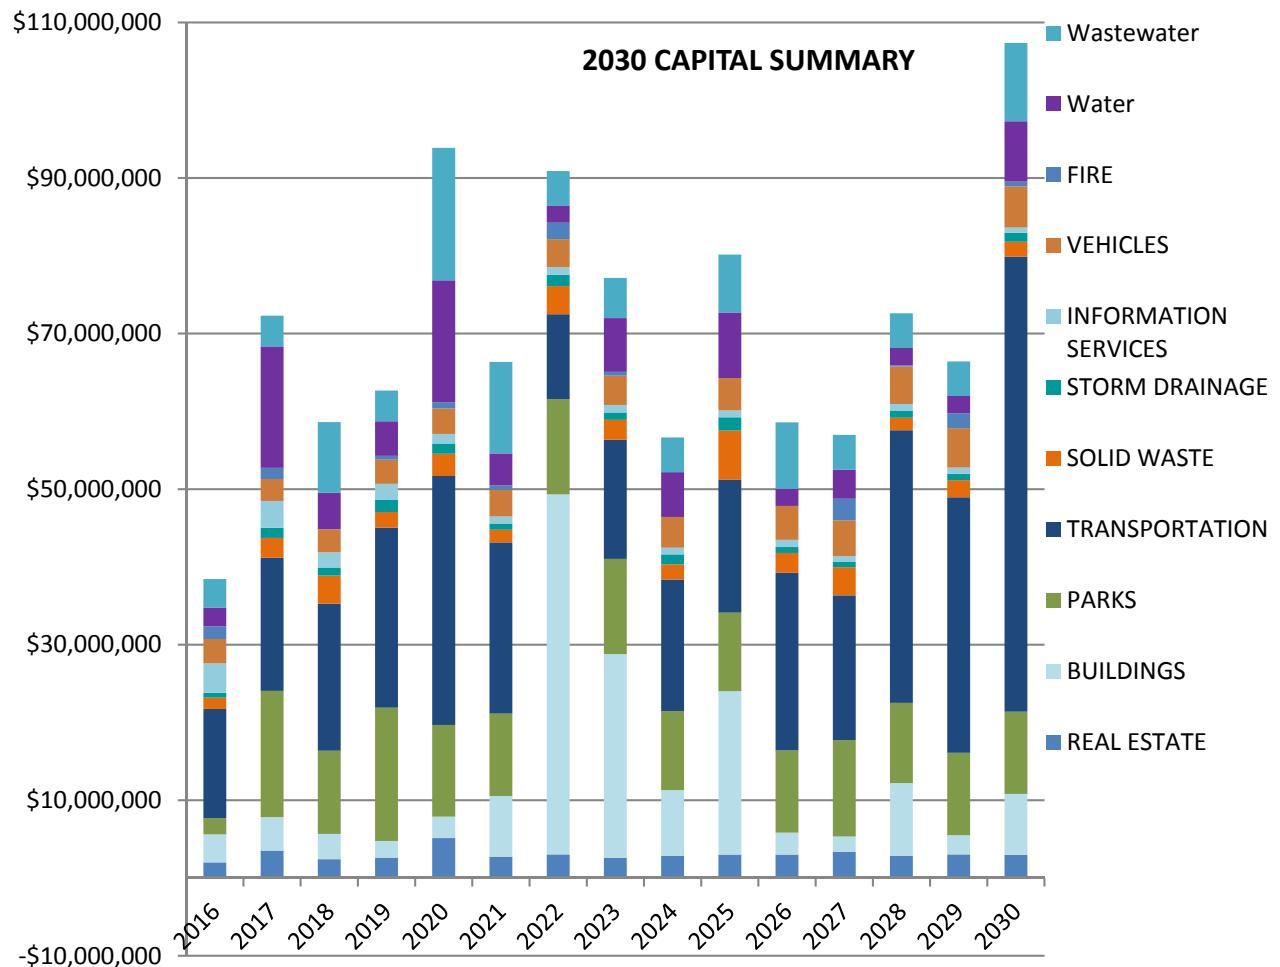

Figure 2 – Infrastructure investment summary by service area.

The capital program ranges in value from \$38.5 million (2016) to \$107.4 million (2030).

The following chart shows the infrastructure investment by service area. Transportation projects account for 34% with approximately 10% of this attributable to active transportation and transit projects. Park and Building projects account for 16% and 14%, respectively. Water and Wastewater are the next largest investment areas with 8% and 10%, respectively.

2030 Infrastructure Plan – Capital Summary

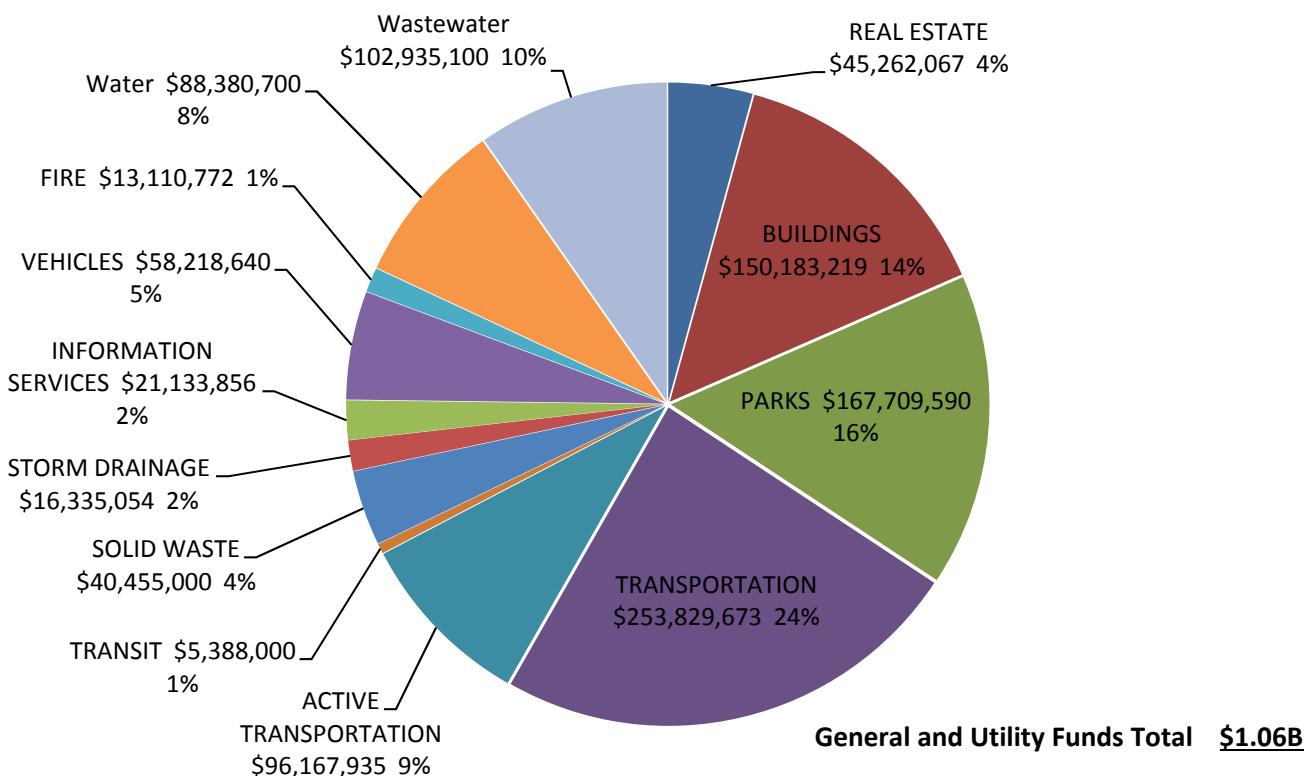

Figure 3 – Infrastructure Investment by Service Area.

Listed below are the Priority 1 projects that exceed \$4 million. Projects are group based on project driver - New, Growth or Renewal. Some of the projects involve more than one project driver so in those instances the project was categorized based on the largest driver. For example, the proposed Parkinson Recreation Centre is required for *Renewal* of the existing facility, to accommodate *Growth* and to provide *New* service enhancements. The primary driver for this project is *Renewal* so the project has been categorized as such despite having elements of all three project drivers.

Table 1 - Priority 1 capital project.

Cost Centre	Project Name	Cost	Construction Year(s)
NEW CAPITAL			
Real Estate	General Land, Acquisition	\$27,792,067	2016 - 2030
Buildings	Downtown/South Parkades - Design and Start Construction	\$5,300,000	2029 - 2030
Buildings	MRP - 2 Ice Sheets (includes indoor turf)	\$19,800,000	2021 - 2022
Parks	Natural/Linear Park Acquisition	\$6,369,558	2016 - 2030
Transportation	Bicycle Network Expansion	\$6,490,000	2016 - 2030
Transportation	Sidewalk Network Expansion	\$9,567,620	2016 - 2030
Transportation	Traffic Control Infrastructure	\$9,270,000	2016 - 2030
Solid Waste	Landfill Liner Construction	\$4,000,000	2025
Storm Drainage	Mill Creek Detention	\$6,230,000	2017 - 2030
Info. Serv.	Fibre Optic Network	\$4,500,000	2016 - 2019

2030 Infrastructure Plan – Capital Summary

Table 2 - Priority 1 capital project (continued)

GROWTH CAPITAL			
Buildings	City Hall Expansion	\$13,200,000	2024 - 2025
Buildings	City Yards - Land Only	\$5,600,000	2028
Buildings	Mission - Activity Centre	\$7,840,000	2024 - 2025
Buildings	North Glenmore Fire Hall (Stn #5)	\$6,400,000	2022 - 2024
Parks	DCC Parkland Acquisition	\$104,684,215	2017 - 2030
Parks	Dehart Park	\$4,700,000	2021 - 2024
Parks	Glenmore Recreation Park	\$4,887,875	2016 - 2018
Parks	Rowcliffe Park (Central Green)	\$4,400,000	2017 - 2019, 2021
Transportation	Central Green Pedestrian Overpass	\$4,000,000	2030
Transportation	Growth (DCC) Road Projects	\$161,143,833	2016 - 2030
Transportation	Growth (DCC) Active Transportation	\$71,670,315	2016 - 2030
Water	Growth (DCC) Water Projects	\$43,635,700	2016 - 2030
Wastewater	Growth (DCC) Wastewater Projects	\$41,237,300	2016 - 2030
RENEWAL CAPITAL			
Real Estate	Parking Equipment	\$6,047,000	2016 - 2030
Buildings	Infrastructure Renewal - Community and Cultural Buildings	\$6,107,259	2017 - 2030
Buildings	Infrastructure Renewal - Parks and Recreation Buildings	\$10,413,181	2017 - 2030
Buildings	Parkinson Recreation Centre	\$50,200,000	2016, 2021 - 2023
Parks	Land Improvements	\$4,225,000	2017 - 2030
Parks	Parking	\$7,245,000	2017 - 2030
Parks	Sport Courts Renovations & Replacements	\$4,573,000	2017 - 2030
Transportation	Bridge Renewal / Repairs	\$5,250,000	2016 - 2030
Transportation	KLO Rd Mission Creek Bridge Replacement	\$5,960,000	2018, 2020, 2029 - 2030
Transportation	Road Renewal	\$56,346,119	2016 - 2030
Transportation	Sidewalk & Bikeway Renewal	\$4,440,000	2016 - 2030
Solid Waste	Automated Collection Curbside Carts	\$4,500,000	2016 - 2030
Solid Waste	Renewal	\$6,440,000	2017 - 2030
Info. Serv.	Front Office Equipment	\$6,099,500	2016 - 2030
Info. Serv.	Major Systems Projects	\$5,429,355	2017 - 2030
Vehicles	Vehicle/Equipment Renewal	\$52,916,306	2017 - 2030
Water	Water Network and Facility Renewal	\$37,500,000	2017 - 2030
Waste Water	Renewal - Wastewater mains and facilities	\$56,700,000	2017 - 2030
TOTAL		\$741,135,145	

2030 Infrastructure Plan - Capital Summary

Listed below are the priority 2 projects that exceed \$4 million. These projects do not have funding and are not scheduled to proceed within the 2030 planning horizon.

Table 3 - Unfunded Priority 2 capital projects.

Cost Centre	Project Name	Cost	Construction Year(s)
TOTAL CAPITAL			
Buildings	Apple Bowl Upgrades	\$5,000,000	2022 - 2023
Buildings	City Yards - Construction	\$46,400,000	2029 - 2030
Buildings	Downtown Activity Centre (replacement for Martin Centre)	\$5,600,000	2021 - 2022
Buildings	Downtown Parkade	\$32,700,000	2025, 2030
Buildings	Infrastructure Renewal - Parks and Recreation Buildings	\$5,159,613	2017 - 2029
Buildings	Kelowna Community Theatre	\$52,500,000	2025 - 2027
Buildings	Kelowna Museum - Replacement	\$38,500,000	2029 - 2030
Buildings	Memorial Arena - Adaptive Reuse	\$5,500,000	2022 - 2023
Buildings	New KLO Fire Hall (Stn #6)	\$4,400,000	2027 - 2028
Buildings	Prospera Place - Renovations	\$8,800,000	2025 - 2026
Parks	Boat Launch Land/Facilities	\$10,000,000	2019, 2024 - 2025
Parks	Cemetery Improvements	\$8,167,105	2018 - 2030
Parks	City Park - Spray Park, Skateboard Park and Playground, Picnic Area	\$6,400,000	2020 - 2022
Parks	City Wide Park Development	\$6,700,000	2017 - 2030
Parks	Glenmore Recreation Park - Future Phases	\$7,162,125	2017 - 2018, 2022 - 2023, 2025 - 2026, 2028 - 2029
Parks	MRP - Youth Park, Plaza & Trail System	\$4,400,000	2024 - 2025
Parks	Streetscapes & Town Centre Development	\$8,800,000	2020 - 2021, 2025 - 2026
Parks	Sutherland Bay Expansion (incl Poplar Point Dr Realignment)	\$4,400,000	2023 - 2024
Transportation	Abbott 1 AT	\$5,400,000	2029 - 2030
Transportation	Airport Way Interchange Proposed Partnership	\$35,000,000	2022
Transportation	Hollywood 8 & AT	\$4,770,000	2030
Transportation	Lakeshore 3 & AT	\$10,000,000	2029 - 2030
Transportation	Abbott St Pathway Crossing	\$4,000,000	2028
Transportation	Clement 2- Hwy 33 Ext. (Clem & Hwy 33-1): Spall-Enterp.	\$50,428,796	2021 - 2023, 2026 - 2028
Transportation	Clifton Road Upgrades	\$4,000,000	2028
Transportation	Gravel shoulder paving, streetscaping in urban centers	\$7,000,000	2017 - 2030
Transportation	Major Exchanges	\$5,000,000	2021
Transportation	Master Planned Primary AT Routes	\$18,000,000	2017 - 2030
Transportation	Rails with trails - Houghton to City Limit	\$4,500,000	2017, 2020, 2023
Transportation	Road safety & operations Partnership with ICBC	\$4,250,000	2017 - 2030
Transportation	Rutland centre road upgrades	\$4,400,000	2017 - 2018
Transportation	Transit Facility Garage	\$59,900,000	2017 - 2018, 2023
Transportation	Transit priority measures (Technology, signal, Queue Jumpers, etc.)	\$6,010,000	2017, 2019 - 2020, 2022, 2024, 2026, 2029
Info. Serv.	Major Systems Projects	\$5,947,426	2016 - 2030
TOTAL		\$489,195,065	

2.4 FUNDING SOURCES

2.4.1 General Fund

There are seven funding sources that support the General Fund projects within the *2030 Infrastructure Plan*. These include: Taxation, Surplus/Reserves, DCC Reserves, Debenture/Borrowing, Federal/Prov Grants, Developer/Community Contributions and Utility revenue. The commitment from each funding source is shown in the chart below.

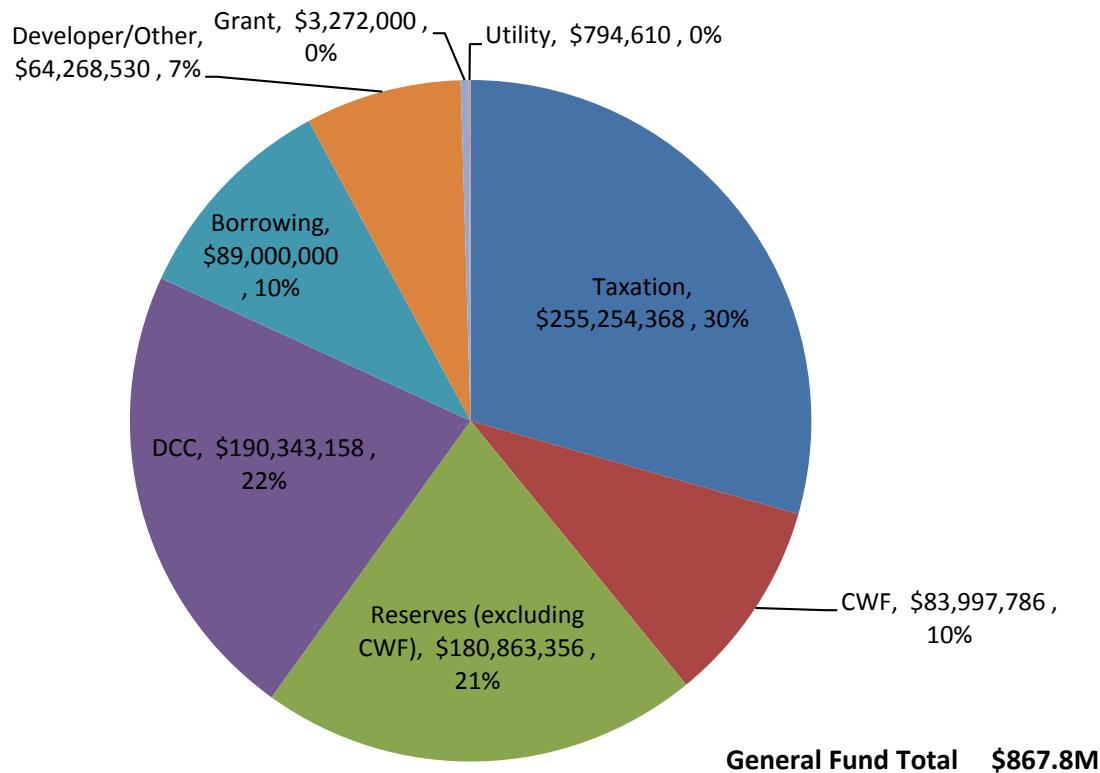

Figure 4 - Funding amounts by source for General Fund Projects.

2.4.2 Water and Wastewater Funding

Water and Wastewater projects are funded primarily from Utility, DCC reserves and other reserves, and Developer/Community/Other Contributions. The cost for the Water and Wastewater projects is \$191 million and is funded from the following sources.

Development Cost Charges	\$45,269,344
Other reserves	\$105,620
Dev/Community /Other Contributions	\$3,300,000
Utility Revenue	\$142,640,836

General Taxation Funding

In 2016, \$12.0 million was the base amount for general taxation funding for the provisional capital budget. This amount is assumed to increase each year based on 40% of the new construction taxation revenues of that year. By 2030 the annual general taxation contribution will be \$21.8 million. At \$255 million, general taxation is the largest funding source providing 30% of the General Fund capital investment over the next fifteen years.

Reserve/Surplus Funding

Reserve funds were used to fund the programs close to the time frames requested by City departments to prevent large fluctuations in annual general taxation requirements.

There is a total of \$265 million in reserve funding (\$84M in Community Works Fund reserve plus \$181M in all other reserves) used over the fifteen-year program.

The existing strategy of using annual surplus to replenish reserves is assumed to continue with approximately \$1 million being allocated annually to various reserves.

Development Cost Charge Funding

Development cost charge funding accounts for \$190 million or 22% of the General Fund capital investment. The timing of DCC projects must coincide with the availability of DCC revenues. Should revenue not be realized, as a result of slowed growth, the timing of DCC projects may need to be adjusted further.

Debenture/Borrowing

There is \$89 million of debenture borrowing required to fund significant Building projects (summarized below).

Table 4 - Infrastructure projects that require borrowing.

Cost Centre	Project	Borrowing Amount (\$ millions)	Year(s)
Buildings	Parkinson Recreation Centre	50.0	2021 - 2023
Buildings	Mission Recreation Park	15.0	2022
Buildings	Mission Activity Centre	7.0	2025
Buildings	City Works Yard (Land Only)	5.0	2028
Buildings	New Municipal Offices	12.0	2025
TOTAL		89.0	

The cost for debt servicing for the above projects is recoverable through taxation based on a twenty-year amortization period. The year-over-year tax impact resulting from current and future debt servicing is shown in Table 4. The projected tax changes result in impacts in 2016 to 2018 as well as 2022, 2023 and 2025 of the planning horizon. These estimates do not include any other impacts to the tax demand from changes to the operating budget which will be discussed later (section 2.6).

2030 Infrastructure Plan – Capital Summary

Table 5 - Projected taxation impacts resulting from borrowing.

Without Firehall Changes

Debt Incurred (yr)	2016	2017	2018	2019	2020	2021	2022	2023
Debt Servicing (%)	0.94%	0.24%	0.35%	-	-	-	1.70%	0.99%

Debt Incurred (yr) (con't)	2024	2025	2026	2027	2028	2029	2030
Debt Servicing (%) (con't)	-	0.77%	-	-	-	-	-

Figure 5 shows projected debt servicing on the existing and projected expenditures as a percentage of the total taxation demand. The current informal policy of debt repayment is to not exceed 5% of the taxation demand. Given the recent borrowing for the Police Services Building as well as other capital projects requesting borrowing, the debt servicing as a percentage of taxation demand is expected to be above 5% for the majority of the duration of the plan.

Debt Servicing % of Taxation Demand

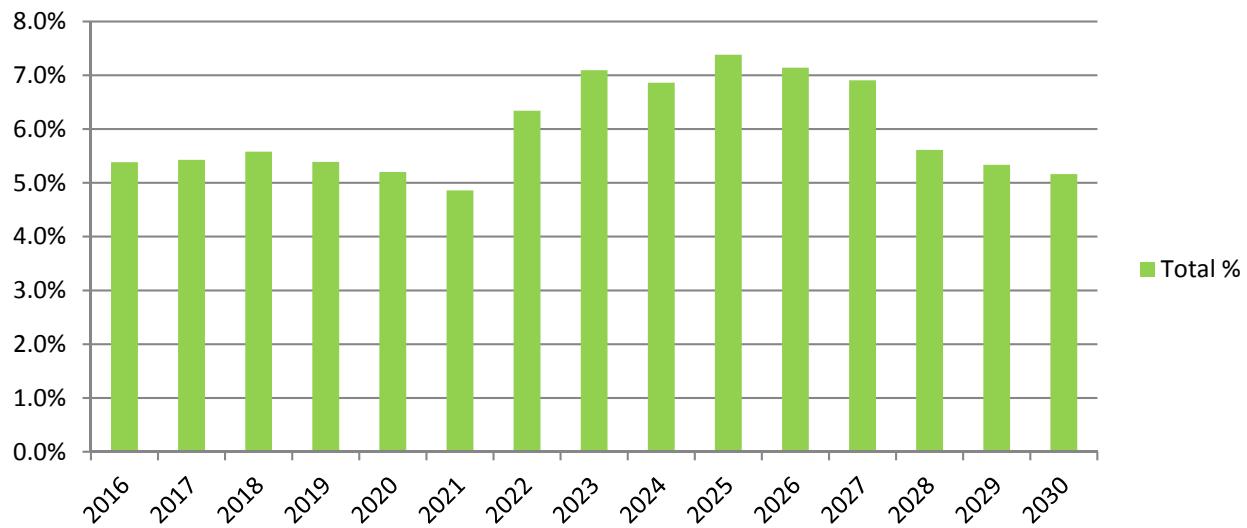

Figure 5 - Debt servicing as a percentage of taxation demand.

Federal/Provincial Funding

A total of \$3.3 million is budgeted in the *2030 Infrastructure Plan* to be received from other levels of government in the form of confirmed provincial/federal grants (summarized below).

Table 6 - Federal/Provincial Funding.

Cost Centre	Project	Assumed Funding (\$ millions)
Buildings	Queensway Transit Pavilion	0.7
Transportation	Rutland Transit Ph 2, Shepherd Rd Extension	1.2
Transportation	Improvements to Transit Operations Centre	0.8
Transportation	Bus Monitoring System	0.6
TOTAL		3.3

Unconfirmed Federal and Provincial grants have not been assumed as part of the funding strategy. As grants become available this will assist in accelerating project delivery.

Developer/Community/Other Contributions

Developer/Community/Other Contributions provides \$64.3 million towards capital projects in this plan. The Transportation cost centre contains the largest portion of this funding source at \$50.5 million that will be used for road infrastructure construction. Developer/Community/Other Contributions are summarized in the table below.

Table 6 – Developer/Community/Other Contributions Funding.

Cost Centre	Assumed Funding (\$ millions)
Park	\$5.4
Transportation	\$50.5
Information Services	\$4.5
Real Estate	\$3.6
Parks	\$0.2
Vehicles	\$0.1
Total	\$64.3

Utility Revenue

Utility revenue funding provides \$795 thousand towards capital vehicle acquisitions in this plan.

2.5 ASSET MANAGEMENT

The City owns and operates approximately \$2.52 billion worth of infrastructure with an estimated annual depreciation rate of \$52 million.

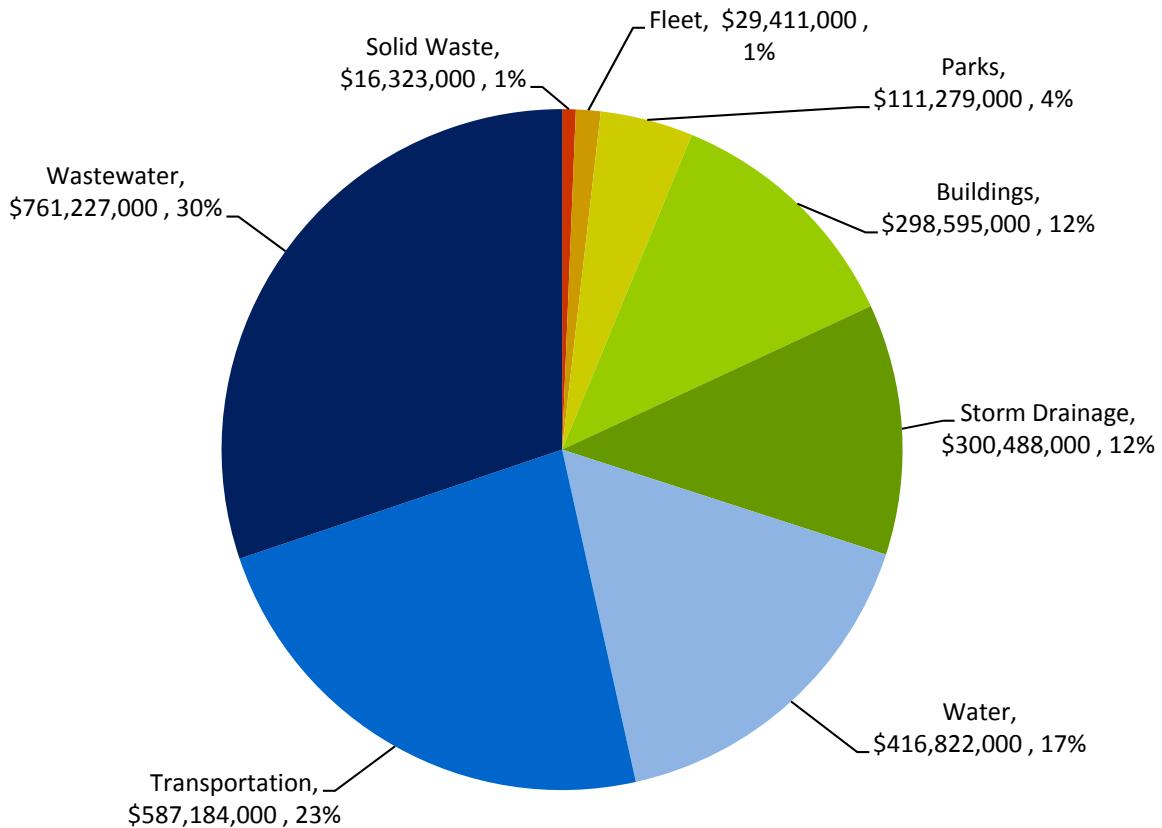

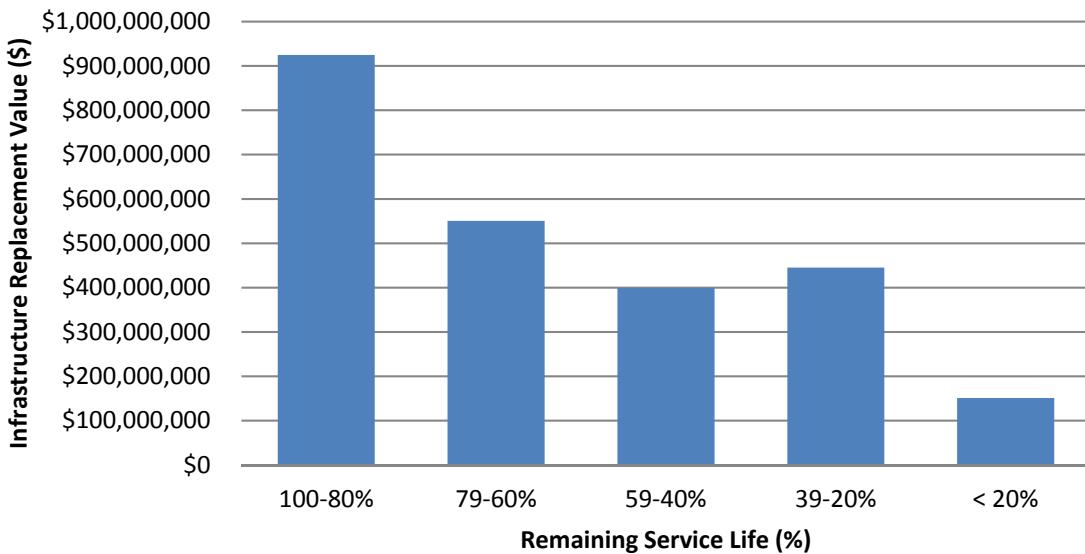

Figure 6 - Current replacement value of City infrastructure assets.

The *2030 Infrastructure Plan* places an emphasis on asset renewal with \$374 million (35%) of the plan allocated for renewing exiting infrastructure. This represents an average annual investment of \$25 million or 50% of the annual depreciation rate. This gap is tolerable in the next 15-years because 94% of the City's infrastructure has more than 20% of its remaining service life. At this Renewal rate, however, the City's infrastructure will age and by 2030 89% of the City's infrastructure will have more than 20% of its remaining service life.

Infrastructure Condition Profile (2014)

Asset management plans for all infrastructure areas will be completed in 2016 that will detail asset renewal timing, costs and the associated risks and service level consequences (if any) for the forecasted funding levels.

2.6 OPERATIONAL IMPACTS

The proposed capital works in *2030 Infrastructure Plan* amounts to \$1.059 billion of which \$374 million would go towards renewal of existing infrastructure. The balance of the program (New + Growth) would be new infrastructure that requires additional money to operate and maintain. The *2030 Infrastructure Plan* forecasts \$475 million of new infrastructure to be added to accommodate growth or improve service levels (exclusive of land costs). At the same time the City will receive approximately \$120 million in contributed infrastructure from development.

Incremental O&M impacts for new infrastructure were calculated as a percentage of 2014 O&M budget and the infrastructure value for each service area. For example, Wastewater had an O&M budget of \$9.5 million and infrastructure asset value of \$716 million in 2014. The quotient of O&M divided by asset replacement value (i.e. $9.5/716 = 1.25\%$) was applied to new infrastructure to forecast the O&M cost over the life cycle of the infrastructure. The graph and table below summarizes the forecasted O&M impacts for each service area.

Projected Operations & Maintenance

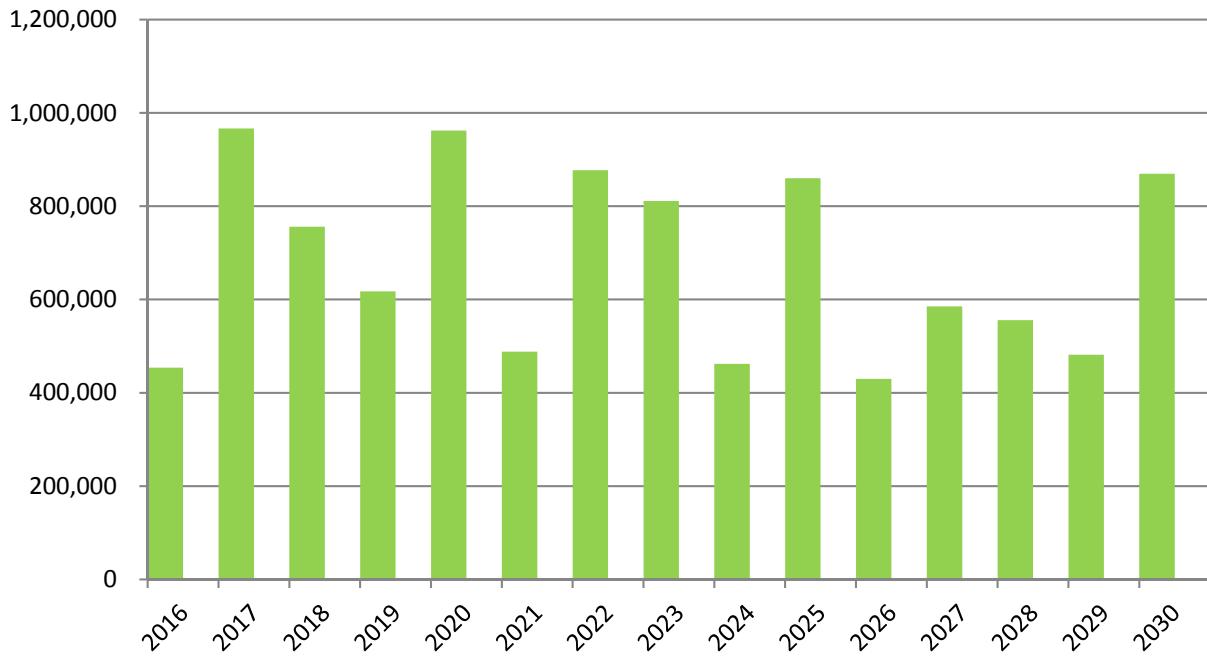

Table 7 - Forecasted operation and maintenance costs associated with New and Growth infrastructure (exclusive of land).

Cost Centre	Service Area	Capital Investment (New + Growth)	%	O&M Forecast
301	BUILDINGS	83,150,000	1.50%	1,247,250
302	PARKS	33,317,817	10.00%	3,331,782
304	TRANSPORTATION	283,225,537	1.21%	3,427,029
305	SOLID WASTE	26,215,000	4.00%	1,048,600
306	STORM DRAINAGE	22,923,195	0.34%	77,939
310	VEHICLES	2,885,404	15.00%	432,811
313	WATER	77,150,700	1.66%	1,280,702
314	WASTEWATER	66,044,300	1.25%	825,554
Total Capital Investment (New + Growth)		594,911,954	TOTAL O&M	11,671,666

The addition of \$595 million of new infrastructure will increase the value of the City's infrastructure to \$3.12 billion and will require an additional \$12 million to operate and maintain. The O&M impacts for Water, Wastewater and Solid Waste will be accounted for in their respective funding models. The remaining \$8.5 million would require addition taxation or operational efficiencies to accommodate.

2.7 SUMMARY

The *2030 Infrastructure Plan* provides the framework for long-term capital planning and fiscal management and allows the City to look ahead and anticipate current and future cost pressures, stretch the limits of our revenues by source, and make the necessary decisions to put in place essential infrastructure to support a future Kelowna. By doing so, this plan will help maximize the investment in the community where and when it is most needed.

The *2030 Infrastructure Plan* aligns with community, council and corporate priorities and vision and sets the direction for infrastructure investment in an affordable and sustainable manner. The City's 10-year capital plan will be developed from the direction set out in the *2030 Infrastructure Plan* and will be updated annually to ensure investment is affordable in the long-term and aligns with strategic direction. This will ensure the community continues to receive the best value for their infrastructure dollars.

2030 Infrastructure Plan – Capital Summary

2.8 COST CENTRE OVERVIEW

Real Estate & Building Services Capital

Program	2016-2030
General Land	\$ 31,362,067
Road and Sidewalk Land Acquisition	645,000
Parking Infrastructure	9,505,000
Strategic Land Redevelopment	3,750,000
	\$ 45,262,067

Buildings

Program	2016-2030
Parks and Recreation Buildings	\$ 83,285,372
Community and Cultural Buildings	16,062,259
Civic/Protective Service Buildings	28,246,673
Transportation and Public Works Buildings	14,498,916
Heritage Buildings	4,600,000
Capital Opportunities and Partnerships	3,490,000
	\$ 150,183,219

Parks

Program	2016-2030
DCC Parkland Acquisition	\$ 104,684,215
Linear/Natural Area Parkland	6,369,558
Neighbourhood Park Development	2,425,000
Community Park Development	14,075,000
Recreation Park Development	6,287,875
City-wide Park Development	3,990,000
Linear/Natural Area Park Development	3,725,000
Park Renewal, Rehabilitation & Infrastructure Upgrades	21,635,000
Capital Opportunities Partnership	4,517,942
	\$ 167,709,590

Transportation

Program	2016-2030
DCC Roads	\$ 161,143,833
DCC Roads - Active Transportation	71,670,315
Non-DCC Transportation	360,000
Transportation System Renewal	80,272,840
Bicycle Network	10,490,000
Sidewalk Network	9,567,620
Safety and Operational Improvements	8,105,000
Traffic Control Infrastructure	9,620,000
Transit Facilities	4,156,000
	\$ 355,385,608

Solid Waste

Program	2016-2030
Equipment	\$ 9,290,000
Site Improvement	10,525,000
Gas Management	3,850,000
Leachate Management	3,600,000
Drainage & Groundwater Management	1,000,000
Recycling & Waste Management	1,300,000
Landfill Area Development	1,750,000
Closure & Reclamation	2,700,000
Solid Waste Renewal	6,440,000
	\$ 40,455,000

Storm Drainage

Program	2016-2030
Hydraulic Upgrading Program	\$ 11,129,195
Storm Drainage Quality Program	1,660,000
Storm Drainage Renewal	3,545,859
	\$ 16,335,054

Information Services

Program	2016-2030
Front Office Equipment	\$ 6,099,500
Server & Data Storage	2,600,000
Major System Projects	6,099,356
Communications Systems	6,335,000
	\$ 21,133,856

Vehicles & Mobile Equipment

Program	2016-2030
Additional Vehicles / Equipment	\$ 2,885,404
Vehicle / Equipment Renewal	55,333,236
	\$ 58,218,640

Fire

Program	2016-2030
Vehicle / Equipment Renewal	\$ 11,462,307
Additional Vehicles / Equipment	40,376
Communications Systems	1,608,089
	\$ 13,110,772

Water System

Program	2016-2030
DCC Pipes (Mains)	\$ 32,971,000
DCC Booster Stations & PRVs	2,216,700
DCC Water Treatment	-
DCC Reservoirs & Filling Stations	7,548,000
DCC Offsite & Oversize	900,000
Network and Facility Renewal	38,980,000
Network and Facility Improvements	5,765,000
	\$ 88,380,700

Wastewater System

Program	2016-2030
DCC Pipes (Mains)	\$ 25,645,300
DCC Lift Stations	1,274,000
DCC Wastewater Treatment Facilities	13,418,000
DCC Oversize	900,000
Network and Facility Renewal	60,072,800
Network and Facility Improvements	1,625,000
	\$ 102,935,100

"I love Kelowna. I've been here 40 years and have enjoyed watching the City grow in an orderly way. Wish I could live another 40 years to see where we go."
Kelowna resident and respondent

3.0 INTRODUCTION

Infrastructure is critical to the quality of life for citizens who live, work and play in our city. Over the next 15 years, the City plans to invest an average of \$70 million annually toward clean drinking water, transportation, parks, buildings, utilities and other capital like equipment, fire trucks, lift stations and wastewater treatment. Keeping citizens safe and healthy, and providing opportunities for economic development is necessary to the sustainability of the community.

The City of Kelowna is in the process of developing the 2030 Infrastructure Plan which outlines the City's infrastructure needs from now to 2030. The 2030 Infrastructure Plan brings together all infrastructure plans to ensure needs can be viewed holistically and investment can be prioritized so that it aligns with community priorities.

Understanding the community's priorities was gained from a number of sources including the 2030 OCP, the Community Trends Report, Citizen Survey and Service Request. With Council's support, Staff reached out to the community as part of development of the 2030 Infrastructure Plan to hear from the community about their infrastructure priorities. Community consultation was facilitated through a mix of face-to-face, email, print and video communications and through the use of an online budget allocation tool which allowed Citizens to experience firsthand balancing the desires of the community and availability of funding to support the long-term infrastructure plan. The following summarizes the results that consultation.

3.1 EXECUTIVE SUMMARY

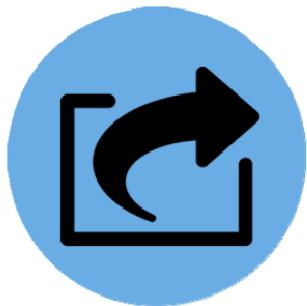

The outreach to Kelowna citizens for the 2030 Infrastructure Plan was the first time the City sought input into infrastructure areas using an online budget allocation platform. This is a relatively new technology that other major municipalities are piloting across the country.

Citizens had the opportunity to share their ideas and feedback with staff at two drop-in sessions as well as online through the City's Get Involved Kelowna engagement platform. Public notification took place throughout the process through advertising, the City's e-Subscribe service as well as ongoing updates on kelowna.ca/2030Kelowna. Transparency of the 2030 Infrastructure Plan helped build awareness and begin the conversation with members of the community to guide the direction of the plan.

A mix of face-to-face, email, online, print and video communications were used to reach the broadest audience possible and a robust social media campaign to inform citizens about the variety of opportunities to stay informed and get involved throughout the project. Communications activities embraced the principle of plain language to help with understanding.

The City of Kelowna developed the approach for engagement in accordance with the terms and guiding principles defined in Council's Engage Policy.

3.2 TIMELINE & MILESTONES

Jan-Sept 2015 Research & Technical Review

- ▶ Compilation of infrastructure plans
- ▶ Long-term capital plan development & financial strategy with staff
- ▶ Annual capital plan development

Oct 2015 to Jan 2016 Consult

- ▶ Presented draft 2030 Infrastructure Plan to Council
- ▶ Open house
- ▶ Online input and budget simulator
- ▶ Summarize feedback

Feb-Jun 2016 Finalize Plan

- ▶ Finalize draft 2030 Infrastructure Plan with Council
- ▶ Develop 10 Yr. Capital Forecast
- ▶ Annual Capital Plan Development

3.3 RESULTS OF PUBLIC ENGAGEMENT

The goal of engagement was *Consult* with citizens to *listen and learn* to understand preferences and share results with Council. The objectives of the communications plan were to create awareness and understanding priorities from those who participated.

Internal stakeholder involvement was extensive. The project team held a series of face-to-face meetings with key departments as part of the review and compilation of infrastructure plans including renewal, growth and service level enhancements.

3.3.1 Budget Allocation Results

The City of Kelowna launched kelowna.ca/2030Kelowna as a one-stop source for information about the purpose of the plan and the public process. The budget allocation platform identified the larger infrastructure areas where input could inform funding levels for transportation, parks,

civic and recreation buildings and utilities. Infrastructure areas that are regulated such as water and wastewater, or out of the ordinary unique funding models for capital areas like BC Transit, Kelowna International Airport and RCMP were not included in the interactive budgeting exercise but were presented as additional information to provide context for the City's entire capital program.

Online input was open from November 12 to January 3.

How the online budget allocator works

Between November 12 to January 3, 2016, 741 people visited the [online budget allocation platform](#) for a total of 165 completed responses which represents 22.3 per cent participation rate from those that visited the site. It took respondents on average 8 minutes to complete their response.

Respondents were asked:

"If you had \$70 million infrastructure dollars to spend, how would you allocate those funds between the following infrastructure service areas?"

Step 1. Review details of the infrastructure areas' descriptions and move the slider to the left or right to indicate your investment in this specific infrastructure area. Watch for the impact statements below that will appear based on the level of investment you decide.

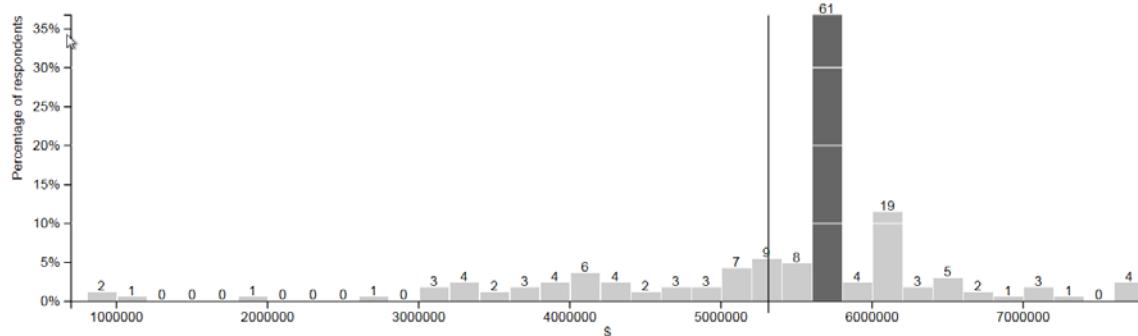

Step 2. Balance the budget before you submit.

Step 3. Enter your postal code to let us know what area of the city you live in and complete a short survey.

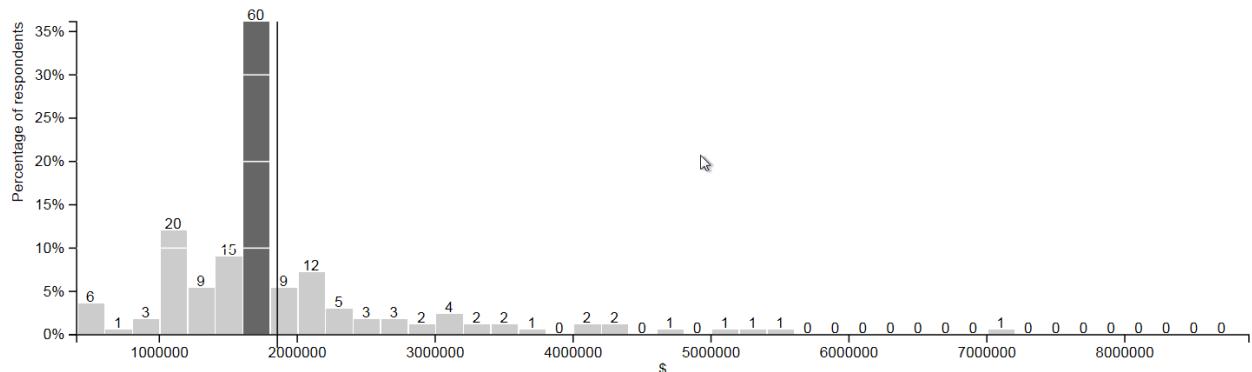

Although the results of the feedback are not considered statistically valid, it will help staff understand respondents' feedback around funding level preferences in most infrastructure areas of the City. The thin vertical line represents average investment determined from all respondents. The solid vertical bars represent individual respondent choices. The Dark vertical bar represents investment level in 2030 Infrastructure Plan.

Buildings

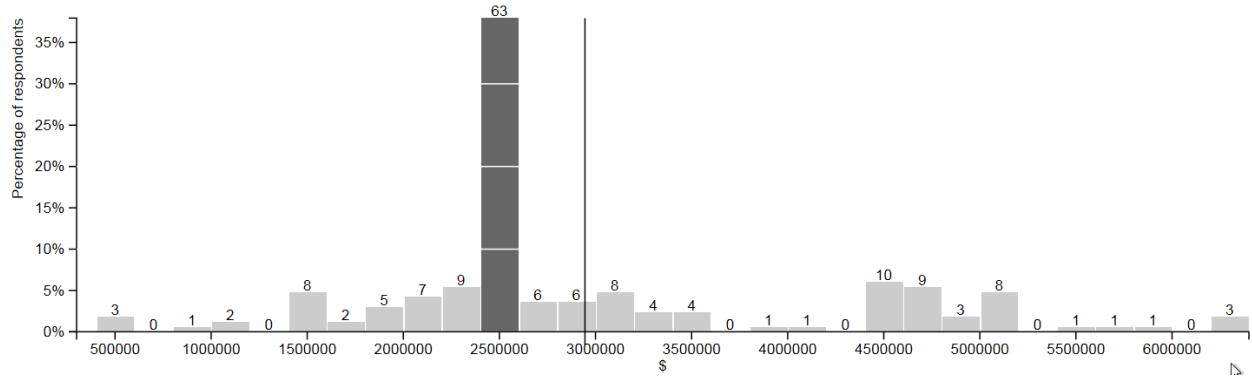

1 Recreational Facilities

2 Arts, Culture and Heritage Facilities

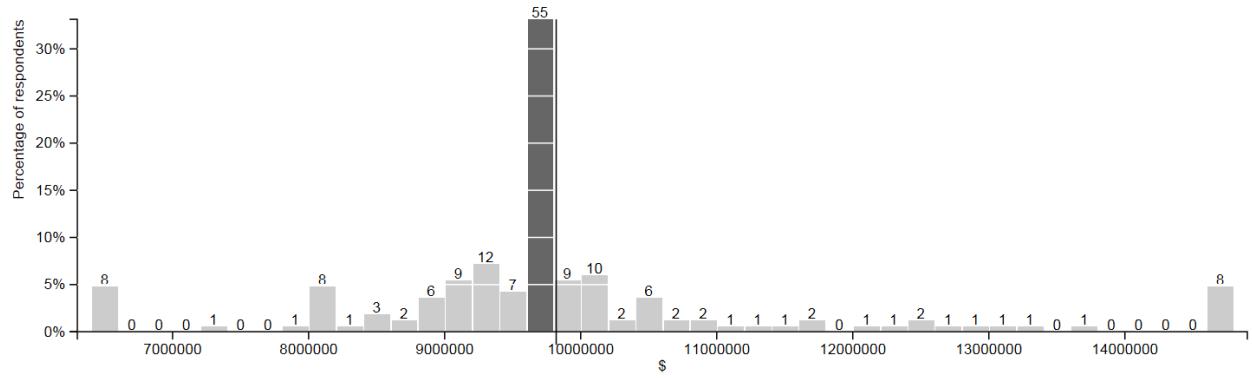

3 Civic, Public Works and Protective Services Facilities

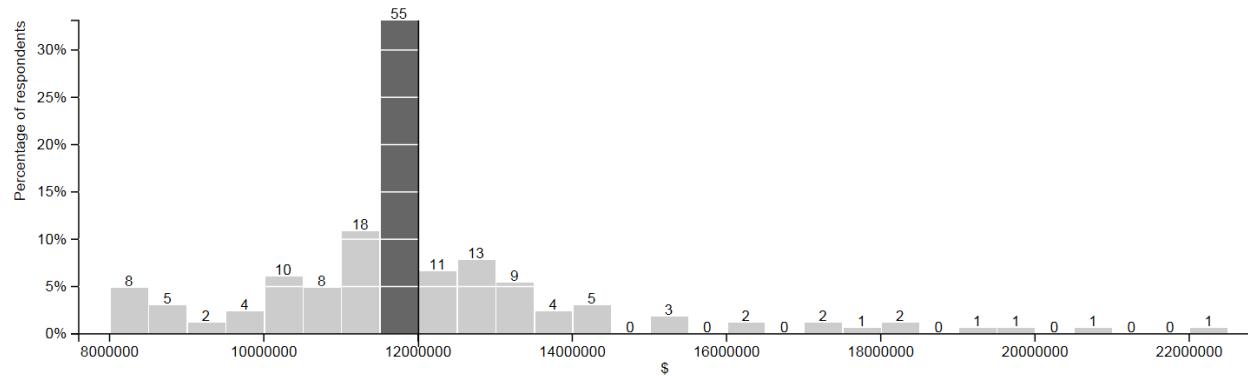

Parks

4 Parkland Development and Acquisition

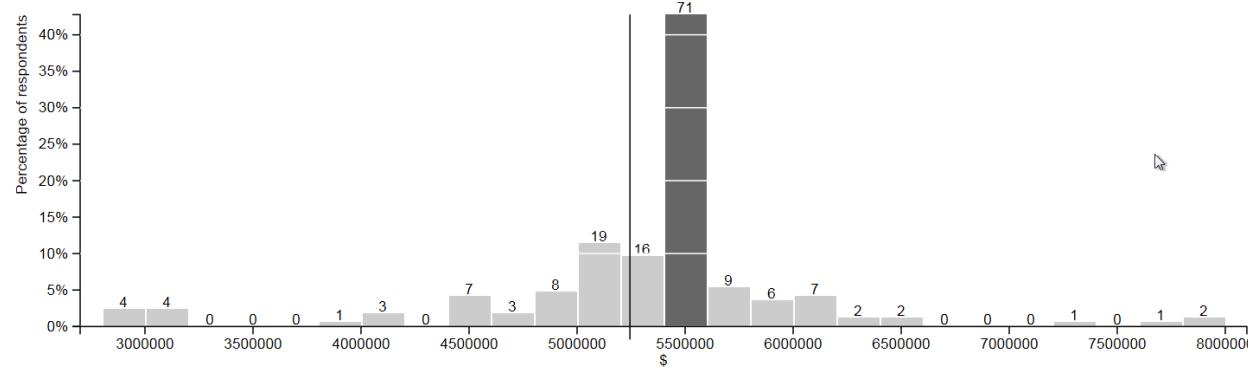

Transportation

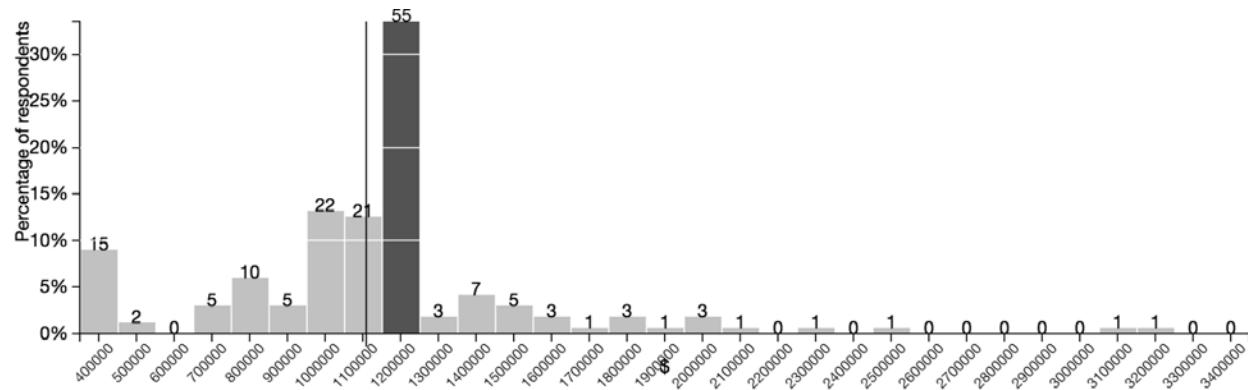

5 Expansion and Upgrade of Road Network and Traffic Control infrastructure

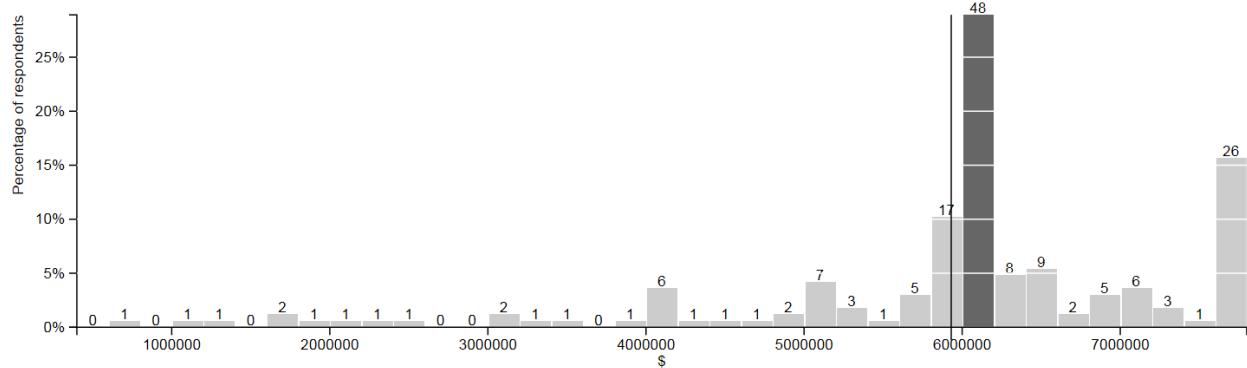

6 Road and Bridge Renewal

7 Parking Infrastructure

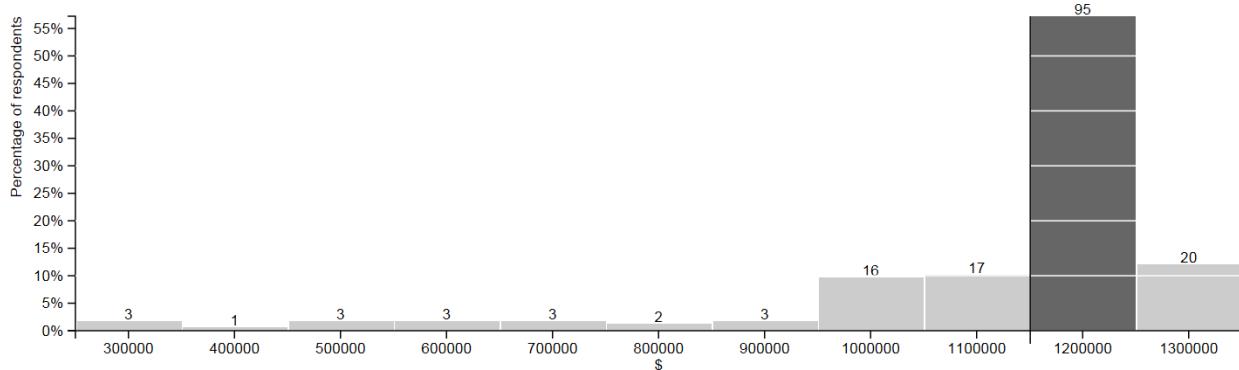

8 Sidewalks, Bike and Multi-Use Paths

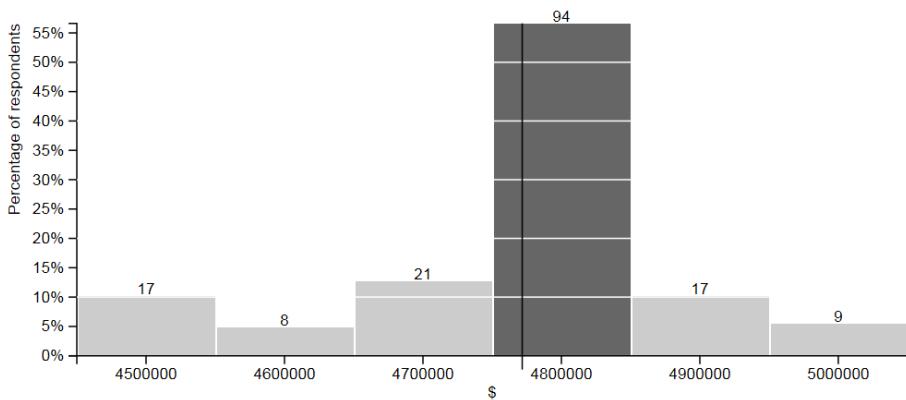

Storm Drainage

9 Flood Protection and Drainage Infrastructure

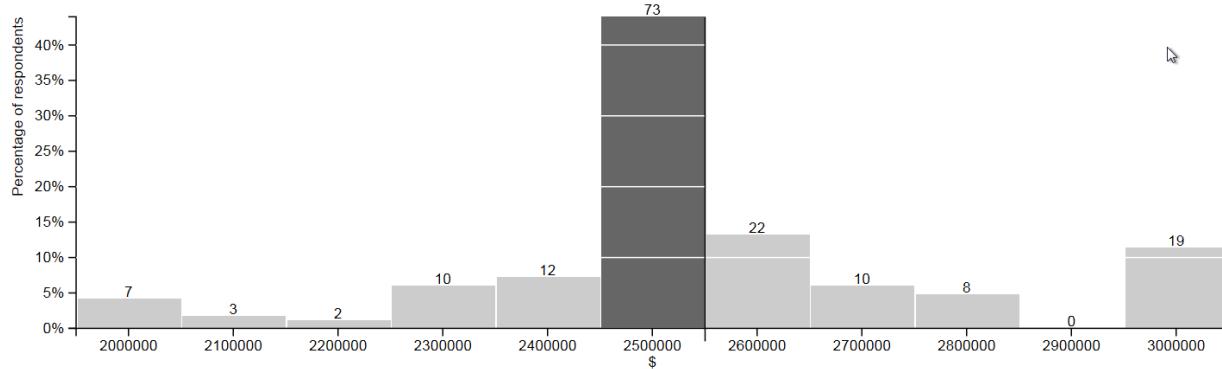

Vehicle and Equipment

10 Vehicles and Equipment for Civic Operations and Fire Department

Real Estate

11 Acquire Land for future roads, parks, linear corridors, public facilities

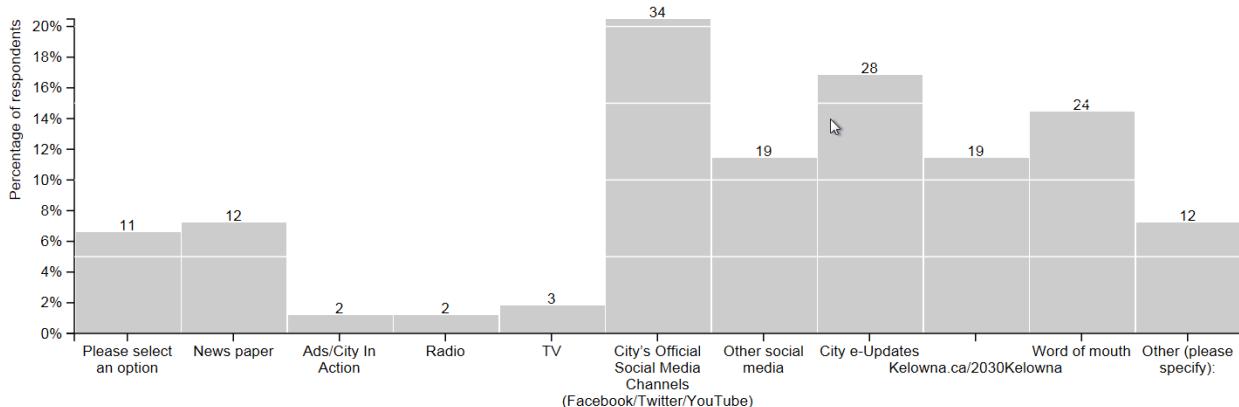

3.3.2 Evaluation

A series of questions were asked to gauge the success of the online budget allocation platform. The feedback received demonstrates:

- 94 per cent of respondents reported they were able to make an informed opinion
- 96 per cent of respondents somewhat agreed or agreed they had a better understanding of the overall current infrastructure investment levels
- 93 per cent respondents rated their experience in the range of average (21), good (85) or excellent (40)

The following graph demonstrates how respondents heard about the 2030 Infrastructure Plan.

15 How did you hear about the 2030 Infrastructure Plan?

3.4 INFORMATION SHARING, COMMUNICATION & MEDIA ANALYSIS

3.4.1 Public Drop-In Session

Drop in sessions for the public were held on November 13 and 14 from noon to 5 p.m. at Orchard Park Mall. The sessions provided an opportunity for staff to promote the online budget allocator and learn firsthand from residents about their preferences on the City's infrastructure plan as it exists today and identify priorities for the future. The public information sessions were promoted through a *City In Action* ad, E-Subscribe, Public Service Announcement, on-site signage and City website.

What we heard

- 30 face-to-face interactions occurred with staff about the project
- Most interactions were positive and focused on creating awareness about purpose of the project and how they could provide feedback. Top themes brought to staff's attention:
 - Crawford sewer connection
 - General development related inquiries
 - Drinking water (Ellison & Reid's Corner)

3.4.2 Get Involved Online Engagement

The City's online engagement web platform was also used to generate awareness. More than 1,700 participants are registered with getinvolved.kelowna.ca and were invited to take part in the budget allocation exercise. Although Get Involved Kelowna was not identified as a primary channel to collect feedback, 17 participants provided open ended comments (summary attached).

Opportunities to be involved and learn more about the project was done through timely communications throughout the active engagement and tagging the process with the 2016 Financial Plan. Background on the project was made available through the City's web, email, print and face-to-face channels as well as through social and traditional media.

3.4.3 Website

Communication activities started early in the project with the creation of the 2030 Infrastructure Plan web page. The page was designed in a user friendly, info graphic look and feel including all of the supporting collateral. The web page has had 2,677 unique views to date.

- Kelowna.ca/2030Kelowna

3.4.4 2030 Infrastructure Project Video

A promotional video was produced and published on the web page to invite citizens to take part in sharing their priorities for future investment while balancing the budget. The video was viewed 405 times.

- [2030 Infrastructure Plan "Have your Say"](#)

3.4.5 Social Media Campaign

The City of Kelowna developed a social media campaign to build awareness and drive traffic to the interactive budget platform to enable community feedback through Facebook and Instagram. The three-week campaign (23 days) was active from Nov. 12 to Dec. 4. resulting in 1,561 clicks to the City's website. Based on similar campaigns, this was considered a success in the number of unique visitors to the website.

3.4.6 E-Subscribe

E-Scribe is the electronic email service that invites members of the public to register to receive information directly about City initiatives. Three notifications were sent to 1,189 subscribers on November 12, November 26 and December 17. E-Scribe was the primary tool for sharing information with interested members of the community. Information was shared with Residents Associations directly and then shared more broadly with the community at large.

3.4.7 Media

Traditional media is an important channel for sharing information with the public and a measure of how that information is being received. At key points in the project, news releases were issued to inform the public about the start of the project and how to be involved. Below is a summary and brief analysis of the message and tone of the coverage.

Date	Media	Headline	Tone
Nov 12, 2015	Capital News	<i>Have your say on future Kelowna municipal infrastructure spending</i>	<ul style="list-style-type: none"> ▪ Neutral ▪ Information about the project and how to get involved

Strategic Land Redevelopment

Priority 1

Strategic Land Redevelopment

Priority 2

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Buildings</i>		
B1	Parks and Recreation Buildings	\$83,285,372
	An allocation for the development of new Parks and Recreation buildings as well as the redevelopment, expansion and renewal of existing ones in various locations throughout the City to keep pace with the increasing demand due to population growth and emerging trends. This category includes Parks Administration, Parks washrooms, field houses, arenas and pools.	
B2	Community and Cultural Buildings	\$16,062,259
	An allocation for the development of new community and cultural buildings as well as the redevelopment, renewal and expansion of existing ones. This category includes the theaters, libraries, senior centres, community halls, art gallery, museums and the RCA.	
B3	Civic/Protective Service Buildings	\$28,246,673
	An allocation for the development of new civic and protective buildings as well as the redevelopment, renewal and expansion of existing ones. This category includes firehalls, police stations and City Hall.	
B4	Transportation and Public Works Buildings	\$14,498,916
	Funding to support renewal, replacement and new construction of Transportation and Public Works Buildings throughout the City to keep pace increasing demand due to population growth and emerging trends. This category includes Public Works Yard, parkades, cemetery and WWTF administration.	
B5	Heritage Buildings	\$4,600,000
	An allocation for the development of new City-owned Heritage buildings as well as the redevelopment, renewal and expansion of existing ones.	
B6	Capital Opportunities and Partnerships	\$3,490,000
	Funding for special projects including partnerships with the School District on community space as part of new school construction as well as funding to allow for capital projects that were not envisioned during the plan development, including partnerships.	
<i>Total</i>		\$150,183,219

Capital Opportunities and Partnerships

Priority 2

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
Parks		
P1	DCC Parkland Acquisition	\$104,684,215
	Park acquisition program based on the residential growth in the City for the purchase of parkland (Neighbourhood, Community, Recreation and City-wide level parks) under the Development Cost Charge program (DCC). Funding is primarily allocated from developer revenue with general taxation covering both the assist factor and secondary suites that are paying reduced DCC's.	
P2	Linear/Natural Area Parkland	\$6,369,558
	Park acquisition program for the purchase of Natural Areas and Linear Parks not attributed to the DCC program.	
P3	Neighbourhood Park Development	\$2,425,000
	An allocation to cover the development of neighbourhood level parks including off-site costs related to park development, but does not include buildings.	
P4	Community Park Development	\$14,075,000
	An allocation to cover the development of community level parks including off-site costs related to park development, but does not include buildings.	
P5	Recreation Park Development	\$6,287,875
	An allocation to cover the development of recreation level parks including off-site costs related to park development, but does not include buildings.	
P6	City-wide Park Development	\$3,990,000
	An allocation to cover the development of city-wide level parks including off-site costs related to park development, but does not include buildings.	
P7	Linear/Natural Area Park Development	\$3,725,000
	An allocation to cover the development of natural areas and linear parks/trails.	
P8	Park Renewal, Rehabilitation & Infrastructure Upgrades	\$21,635,000
	An allocation for major repairs or replacement of existing park infrastructure such as sidewalks, hard-surfaced trails, parking lots, sport courts, lighting, electrical and water services, irrigation, fencing, bridges and other major structures.	
P9	Capital Opportunities Partnership	\$4,517,942
	An allocation for various strategic investments into the park and open space system as well as funding to allow for capital projects that were not envisioned during the plan development, including partnerships.	
	<i>Total</i>	\$167,709,590

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Transportation</i>		
T1	DCC Roads	\$161,143,833
Allocation for design, land and construction costs associated with DCC Road projects.		
T2	DCC Roads - Active Transportation	\$71,670,315
Allocation for design, land and construction costs associated with DCC Active Transportation projects. General taxation to cover 77.7% Assist.		
T3	Non-DCC Transportation	\$360,000
Infrastructure upgrades which are not part of the 20 Year Servicing Plan and Financing Strategy (collectors and local roads) and City initiated projects to upgrade streets to full urban standards including drainage, fillet paving, sidewalks and landscaped boulevards.		
T4	Transportation System Renewal	\$80,272,840
Allocation for overlay and other processes, including micro asphalting, for rehabilitation of City roads. Also includes renewal of curb and gutter, bike paths, retaining walls, bridges, street lights, handrails and stairways.		
T5	Bicycle Network	\$10,490,000
Allocation for bike network system additions.		
T6	Sidewalk Network	\$9,567,620
Allocation required to complete the Non-DCC portion of the sidewalk network.		
T7	Safety and Operational Improvements	\$8,105,000
Allocation to cover field reviews and capital improvements for safety improvements or to improve operational efficiency. This will include projects such as left turn bays, traffic control changes, safety barriers, signs, markings, handicap access improvements and retrofit medians.		
T8	Traffic Control Infrastructure	\$9,620,000
This program is for construction of new traffic signal control infrastructure that is not part of the DCC program. This includes new traffic signals and pedestrian activated traffic signals, installation of new communication for the traffic signals system and where new development occurs install conduit for future traffic signals.		
T9	Transit Facilities	\$4,156,000
Construction of new or existing transit facilities, bus pullouts and shelters.		
Total		\$355,385,608

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
Solid Waste		
SW1	Equipment	\$9,290,000
	Funding for new equipment and replacement of existing equipment.	
SW2	Site Improvement	\$10,525,000
	Funding for site improvements like buildings, roads, landscaping and fencing.	
SW3	Gas Management	\$3,850,000
	Required for design, installation and extension of gas management system and utilization of gas to energy.	
SW4	Leachate Management	\$3,600,000
	Required for installation and extension of leachate collection, treatment, recirculation network and pump facilities.	
SW5	Drainage & Groundwater Management	\$1,000,000
	Funding for design and installation of surface and groundwater systems, piping, storage and pump stations.	
SW6	Recycling & Waste Management	\$1,300,000
	Facilities and infrastructure to support waste management and recycling including composting, waste separation and diversion, last chance mercantile, and curbside bins.	
SW7	Landfill Area Development	\$1,750,000
	Required for planning, design and development of areas for filling to maximize available space.	
SW8	Closure & Reclamation	\$2,700,000
	Required for design and construction of final cover system and closure infrastructure and reclamation of disturbed areas to natural state.	
SW9	Solid Waste Renewal	\$6,440,000
	Renewal and replacement of site infrastructure and equipment.	
Total		\$40,455,000

Solid Waste Renewal

Priority 2

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Storm Drainage</i>		
D1	Hydraulic Upgrading Program	\$11,129,195
	Estimated expenditures to cover hydraulic improvements to the storm drainage system. These projects are taken directly from the area drainage plans (North, Rutland, Central, Downtown, South Mission and South East Kelowna). Projects are ranked according to priority.	
D2	Storm Drainage Quality Program	\$1,660,000
	This program includes storm drainage quality projects taken from the area drainage plans and forms the overall work program. The program includes a hydrocarbon and sediment reduction program along high traffic/accident routes. The program considers priority sanding routes, environmental risk, accident rate and coordinated opportunities as criteria for location selection.	
D3	Storm Drainage Renewal	\$3,545,859
	This program provides for the renewal and replacement of pipes, pump stations, and treatment facilities.	
<i>Total</i>		\$16,335,054

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Information Services</i>		
I1	Front Office Equipment	\$6,099,500
	Information Services have been utilizing a 5 year replacement cycle for desktop equipment which includes computers, printers, monitors, scanners and software. It also includes work group equipment such as large format plotters and copiers.	
I2	Server & Data Storage	\$2,600,000
	To provide equipment and software in City Hall data centre to support the various systems in place for staff and includes equipment for the Fire Hall data centre. Included are servers, disk storage, tape backups and the related software.	
I3	Major System Projects	\$6,099,356
	Major systems projects include tax system, collection systems (cash and electronic funds), permit systems, property systems, Agresso ERP system, Asset Management system, customer relation systems (service requests), employee time entry systems and maintenance management systems.	
I4	Communications Systems	\$6,335,000
	To provide a networking environment that interconnects the various places and spaces used by City staff, this budget will support the expansion of the City's fibre optic ring which will reduce need for leased communication lines. Network components that have reached the end of their serviceable life will also be replaced.	
<i>Total</i>		\$21,133,856

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Vehicle & Mobile Equipment</i>		
V1	Additional Vehicles / Equipment	\$2,885,404
	This budget supports the addition of new vehicles and equipment to the corporate fleet in response to increased service demand from population growth or additional services.	
V2	Vehicle / Equipment Renewal	\$55,333,236
	As part of the City's vehicle replacement program, vehicles at the end of their service life cycles are replaced using funds from the equipment replacement reserve. Cars and light trucks have an average design life of 10 years. Most heavy duty equipment has a service life of 7-10 years or 10,000-12,000 hour run time.	
	<i>Total</i>	\$58,218,640

Vehicle / Equipment Renewal

Priority 2

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Fire</i>		
F1	Vehicle / Equipment Renewal	\$9,477,631
<p>As part of the Fire Departments vehicle/equipment replacement program, vehicles and equipment at the end of their service life cycles are replaced using funds from the Fire Departments equipment replacement reserve.</p>		
F2	Additional Vehicles / Equipment	\$2,025,052
<p>This budget supports the addition of new vehicles and equipment to the Fire Department in response to increased service demand from population growth.</p>		
F3	Communications Systems	\$1,608,089
<p>To provide for radio system improvements or replacement, including dispatch requirements</p>		
<i>Total</i>		\$13,110,772

***City of Kelowna
Capital Project Description***

Program	Program Description	Total P1 Program Costs (15 Yrs)
<i>Wastewater System</i>		
WW1	DCC Pipes (Mains) New wastewater mains to support growth.	\$25,645,300
WW2	DCC Lift Stations New wastewater lift stations to support growth.	\$1,274,000
WW3	DCC Wastewater Treatment Facilities New wastewater treatment facilities to support growth.	\$13,418,000
WW4	DCC Oversize The City's share of costs to oversize wastewater infrastructure and to do work in excess of the developer's own needs.	\$900,000
WW5	Network and Facility Renewal Renewal of existing wastewater mains, lift stations and treatment facilities that have reached the end of their service life.	\$60,072,800
WW6	Network and Facility Improvements Expansion or upgrade of Wastewater network and facilities to accommodate growth, meet regulatory requirements and/or improve service.	\$1,625,000
<i>Total</i>		\$102,935,100
